HENRY MOSES

Data Analyst | Business Intelligence & Automation Specialist Abuja, Kaduna Nigeria | +2348065631445 | henrowbaba@gmail.com LinkedIn Profile

PROFESSIONAL SUMMARY

Strategic Data Analyst with over 6 years of experience driving data-driven decision-making within Nigeria's agricultural sector. Expert in leading high-complexity projects, building advanced Power BI dashboards, and automating repetitive tasks using Python and workflow tools (n8n/Power Automate). Proven ability to transform complex datasets into actionable insights that optimize supply chains and increase operational efficiency.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, Numpy), SQL (PostgreSQL, MySQL), R, and DAX.
- **BI & Visualization:** Power BI (Advanced), Tableau, Excel, and Data Storytelling.
- **Automation & ETL:** n8n, Power Automate, Apps Script, and AI Workflow Automation.
- **Data Collection:** ODK, Kobotoolbox, CommCare, and Google Forms.
- **Soft Skills:** Stakeholder Management, Conceptual Reasoning, and Problem Solving.

WORK EXPERIENCE

Head, Data Analytics & Product Management Lead | *StarAgri West Africa Limited*

December 2024 – Present

- **Project Leadership:** Spearhead the design and execution of advanced analytics solutions to optimize agricultural processes, achieving a **20% increase in efficiency**.
- **Dashboard Development:** Build and maintain high-complexity **Power BI dashboards** providing real-time insights into farming activities and supply chain logistics.
- **Strategic Collaboration:** Coordinate with cross-functional teams to define project scopes and data-driven product strategies, improving engagement by 25%.
- **Predictive Analytics:** Collaborate with engineers to integrate machine learning models for crop yield forecasting.

Head, Data Analyst & IT | *Value Seeds Ltd*

September 2020 – December 2024

- **Workflow Automation:** Streamlined data collection and reporting procedures, reducing manual processing time by **20%**.
- **Data Integrity:** Improved organizational data quality and integrity by **70%** through the development of user-friendly collection tools and staff training on ODK/Kobotoolbox.
- **Stakeholder Communication:** Produced 15+ comprehensive reports and presentations for stakeholders, translating complex findings into actionable strategic outcomes.

Senior Database Administrator | *City College School of Health*

October 2018 – January 2020

- **ETL & Database Design:** Designed and implemented scalable database systems and optimized SQL queries for faster data retrieval and processing.

SELECTED PROJECTS

- **Autonomous AI WhatsApp Agent :** Developed a fully autonomous AI system using n8n, Pinecone (Vector Stores), and Gemini API to automate lead generation and meeting scheduling. This solution utilized Retrieval-Augmented Generation (RAG) to provide intelligent, automated responses and real-time logging to Google Sheets**.**
- **Logistics Management System:** Streamlined logistics operations and enhanced process automation, reducing lead time by **60%** and identifying significant cost-saving opportunities.
- **Sales Performance Prediction:** Developed a regression model and dashboard with **96% forecasting accuracy**, directly influencing strategic sales growth.
- **Warehouse Inventory System:** Built a real-time tracking system for goods supplied, ensuring 95% tracking accuracy and a 15% reduction in costs.

EDUCATION & CERTIFICATIONS

- **MSc Computer Science** | Ahmadu Bello University (GPA: 3.58/5.0)
- **PGD Computer Science** | Ahmadu Bello University (GPA: 4.85/5.0)
- **Google Data Analytics Professional Certificate:** Expertise in Data Analysis with R, Data Visualization, and Data-Driven Decision Making.
